

100% Plastic-free packaging process

Tamper Evident Safe, Eco & Lean

Protect Patients

2011/62/EU FMD Directive & Commission Delegated Regulation (EU) 2016/161

EN ISO 21976:2020 Tamper Evident packaging

2019/904 EU plastic reduction directive

Blind-friendly

FMD more information

FDA more information

Hot glue sealing and some stickers cannot comply with this irreversibility

Respect the Planet

Limit plastic by avoiding labels and glues in the packaging process

Reduce raw and waste materials

Save Energy

Reduce Costs

No need for gluing or labelling

No additional space needed in production

Best OEE - Overall Equipment Effectiveness

- Not slowing-down the packaging process
- Speed up to 850 pieces/minute
- No setup nor maintenance for glue and stickers machines
- Micro stops reduction

Easily adaptable to existing packaging machines, making them more efficient. Contact your line supplier for the needed adjustments.

TECOBOX: HOW IT WORKS

TECOBOX enhances pharmaceutical packaging security with design that visibly indicate tampering, thereby ensuring product integrity and compliance with industry standards. The TECOBX seal is part of the box and needs to be ripped-off to open the box. That's irreversible and also evident.

1. INTACT

2. APPARENT & VISIBLE

3. IRREVERSIBLE
