

PHARMACOVIGILANCE AND  
REGULATORY AFFAIRS

# Automate regulatory deadline calculation. Gain operational control.

Automated planning,  
monitoring and traceability for  
Periodic Safety Report  
submissions, Marketing  
Authorization Renewals and  
other regulatory activities.

**Chronisia**  
PLAN. MONITOR. COMPLY.

# PLAN. MONITOR. COMPLY.

Designed for Periodic Safety Report submissions, Marketing Authorization Renewals and other regulatory activities, Chronisia is a software solution that calculates deadlines, assigns tasks and monitors progress, reducing the risk of delays and missed dates.

---

## COMPLEX DEADLINES, SIMPLE STEPS

### 1. CALCULATE DEADLINES

Enter product, authority and regulatory data. Chronisia applies configured rules to calculate DLPs and both regulatory submission and internal deadlines.

### 2. MONITOR AND COLLABORATE

Assign activities, receive reminders and notifications and track progress in real time, giving teams a shared view of responsibilities, workload and upcoming deadlines.

### 3. ACHIEVE COMPLIANCE

Every action is tracked and ready for export, helping teams provide clear and verifiable evidence during audits or inspections.

# MORE CONTROL, LESS OPERATIONAL RISK

## **DEADLINES UNDER CONTROL** BEYOND MANUAL LIMITATIONS

---

Chronisia overcomes manual spreadsheets and fragmented reminders, turning regulatory deadline management into a structured and traceable process.

## **SYNCHRONIZED TEAM** FULL VISIBILITY, TIMELY ACTION

---

Intuitive dashboards give managers a clear view of workload and process status, while operators can track their assigned activities and upcoming deadlines.

## **COMPLETE TRACEABILITY** AUDIT-READY, ALWAYS

With a complete audit trail and activity comments, Chronisia keeps each process traceable, structured, accessible and ready for review.

### **VALIDATED SYSTEM**

Designed for GxP-regulated environments.

### **DATA SECURITY**

Protection of sensitive data with a focus on business continuity.

### **DIRECT SUPPORT**

Assistance from the developers of the solution.

## ABOUT US

Max Application is an Italian software house with over twenty years of experience in IT solutions for regulated and process-driven industries.

Since 2008, it has been providing SafetyDrugs, the pharmacovigilance database used by over a quarter of Italian pharmaceutical companies.

With Chronisia, Max Application expands its product portfolio, bringing its experience into pharmaceutical regulatory deadline management.

### Reliability

Long-standing Oracle Gold Partner.

### Quality, data security and privacy

ISO 9001:2015, ISO/IEC 27001, NIS2 and GDPR.

### Solidity

Part of Abacus Group, an IT ecosystem specialized in digital transformation, infrastructure and managed services.
